SUMMARY

Recent Software Engineering Technician graduate seeking entry-level or junior-level opportunities in software engineering. Recognized as a quick learner and an effective team player, I excel in delivering high-quality projects within tight deadlines. Eager to apply my skills and enthusiasm in a dynamic team environment to contribute meaningfully to software engineering projects.

SKILLS

Languages:	HTML, CSS, JavaScript, TypeScript, SQL, C#, Python, Java
Tools:	Git, GitHub, VS Code, MongoDB, Figma, Heroku, Netlify, Render, Google Colab, Jupyter Notebook, Android Studio
Frameworks:	React, Angular, Angular Material, Material UI, EJS, Node JS, Express JS, Bootstrap, Tailwind CSS
Concept:	OOP, SPA, Design pattern, Databases, Agile, UI/UX
API:	Restful API

PROJECTS

NutriNetwork – Web Application | Nov 2023 – Present

React, TypeScript, Tailwind CSS, Daisy UI, public APIs, Open AI API, Git, GitHub

- Engineered a health-focused web platform allowing users to share stories and recipes, using ReactJS and TypeScript.
- Integrated Firebase for real-time data management and incorporated Tailwind CSS for a responsive design.
- Implemented OpenAI API to automatically generate recipe steps, enhancing user interactivity and functionality.
- Collaborated with a team member, managing versions and updates efficiently using Git and GitHub.

github.com/NutriNetwork

Survey Creation – Web Application | Dec 2022

Angular, Angular Material, JQuery, MongoDB, Mongoose, Bootstrap, NodeJS, Git, GitHub

- Users can create customized forms with short questions, ensuring a seamless and interactive experience.
- Implemented JSON, MongoDB, and NodeJS for user authentication, CRUD operations, and statistical analysis.
- Organized and managed the project tasks and workflows.
- Leveraged MongoDB for efficient data storage, while deploying and hosting on Render.

EXPERIENCE

City of Toronto, Toronto | Ballot Officer / Revising Officer Jun 2023 – Jun 2023

- Assisted with the setup of the voting place for a smooth and organized process.
- Issued ballots and administered oaths to voters.
- Assisted voters in revising their information on the voters' list.
- Provided guidance and support to ensure a successful voting experience.

Waihong environmental services limited, Hong Kong | Assistant Operations Officer Feb 2013 – Mar 2014

- Assisted in the development of an electronic cleaning inspection form system.
- Replaced traditional paper forms with the electronic system.

EDUCATION

Centennial College, Toronto Jan 2022 – May 2023

College Diploma in Software Engineering Technician with High Honours

The Open University of Hong Kong, Hong Kong Sep 2009 – Aug 2011

Honours Degree in Bachelor of Science in Applied Science

CERTIFICATION

Cantek IT Program, Toronto Nov 2023 – Dec 2023

Certificate of Completion - Web Development Training
