SUMMARY

Recent graduate in Software Engineering Technician Diploma with a strong sense of responsibility and a genuine passion for work. A highly effective team player, skilled in collaborative efforts, and consistently delivers high-quality projects within tight deadlines. Eager to apply newly acquired knowledge and skills to drive success in the software engineering field.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, SQL, C, Python, Java
Tools: Git, GitHub, VS Code, MongoDB, Figma, Heroku, Netlify, render, Trello, Android Studio
Frameworks: Angular, React, EJS, Node JS, Bootstrap,
Concept: OOP, Design pattern, Databases, Agile, UI/UX
API: Restful API

PROJECTS

Questionnaire Creation – Website |

Angular, Angular Material, JQuery, MongoDB, Mongoose, Bootstrap, NodeJS, Git, GitHub, Trello   Dec 2022
- Users can create customized forms with short questions, ensuring a seamless and interactive experience.
- Implemented JSON, MongoDB, and NodeJS for user authentication, CRUD operations, and statistical analysis.
- Organized and managed the project tasks and workflows.
- Leveraged MongoDB for efficient data storage, while deploying and hosting on Heroku.

Personal Portfolio - Website | *EJS, jQuery, MongoDB, NodeJS, Git, GitHub, Heroku*   Nov 2022

- Implemented MongoDB and NodeJS for managing business contacts with CRUD functionality.
- Utilized various technologies for a responsive and visually appealing design.
- Included a secure login functionality for managing business contacts.

Fruit Identification - Android App | *Python, Google Colab, Java, TensorFlow, Android Studio*   Apr 2023

- Built a high-accuracy machine learning model using Python and trained it in Google Colab.
- Integrated the model into an Android app developed in Android Studio for identifying apples, oranges, and bananas.
- Utilized TensorFlow and real-time image capture or gallery selection for fruit identification.
- Combined machine learning for an intuitive and reliable Fruit Identification App.

EXPERIENCE

City of Toronto, Toronto | *Ballot Officer / Revising Officer*   Jun 2023 – Jun 2023
* Assisted with the setup of the voting place for a smooth and organized process.
* Issued ballots and administered oaths to voters.
* Assisted voters in revising their information on the voters' list.
* Provided guidance and support to ensure a successful voting experience.

Waihong environmental services limited, Hong Kong | *Assistant Operations Officer*   Feb 2013 – Mar 2014
* Assisted in the development of an electronic cleaning inspection form system.
* Replaced traditional paper forms with the electronic system.

EDUCATION

Centennial College, Toronto   Jan 2022 – May 2023
College Diploma in Software Engineering Technician with High Honours

The Open University of Hong Kong, Hong Kong   Sep 2009 – Aug 2011
Honours Degree in Bachelor of Science in Applied Science
